Going for the bomb

Dear Reader,

There comes a time when we must all move on, grow and expand. This, however, does not mean you should forget those times which made you the person you are. This book, hopefully, will facilitate those memories and experiences with pictures and events. It should serve as a personal book to each and everyone of you, containing ideas, happenings and times which you yourself were a part of and now is a part of you.

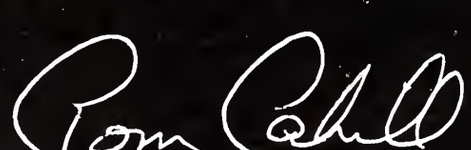
This job can not be done alone and thanks must be given to first the photographers, Mike Jacobs, Nancy Newell, and Mark Nies. The darkroom technicians who spent hours printing pictures, are Don Beveridge and Ramiz Al-Kass. Finally the production staff: Sharon McCarthy, George McMullen, Neil Cullen, Kathy Leonard, Kate Foster, JoAnn Agonis, and Molly McGrath.

A very special thanks goes to Nora Foster and Patty Evans who helped to the bitter end.

We tried to cover everything, however, I'm sure we must have missed something. If so, you have my deepest apologies.

This has been an experience that I will never forget.

Sincerely,



Tom Cahil

Editor, Ranger Yearbook
